

Training course evaluation

Each participant filled a questionnaire (Final Evaluation) at the end of the Trainign course “Youth inclusion: Opportunities within the Youth Programme”. This allowed the organizer to know how different aspects of the course were felt by the participants.

The participants were 17, but unfortunately some of them have not sent the form back.

The questionnaire was made up of 7 questions, about:

- organisation and management
- general evaluation
- objectives reached
- issues tackled in the course
- trainers and staff
- materials and support
- aspects to care for the future

The data summarized from questionnaires are reported here, in charts and ghaps.
